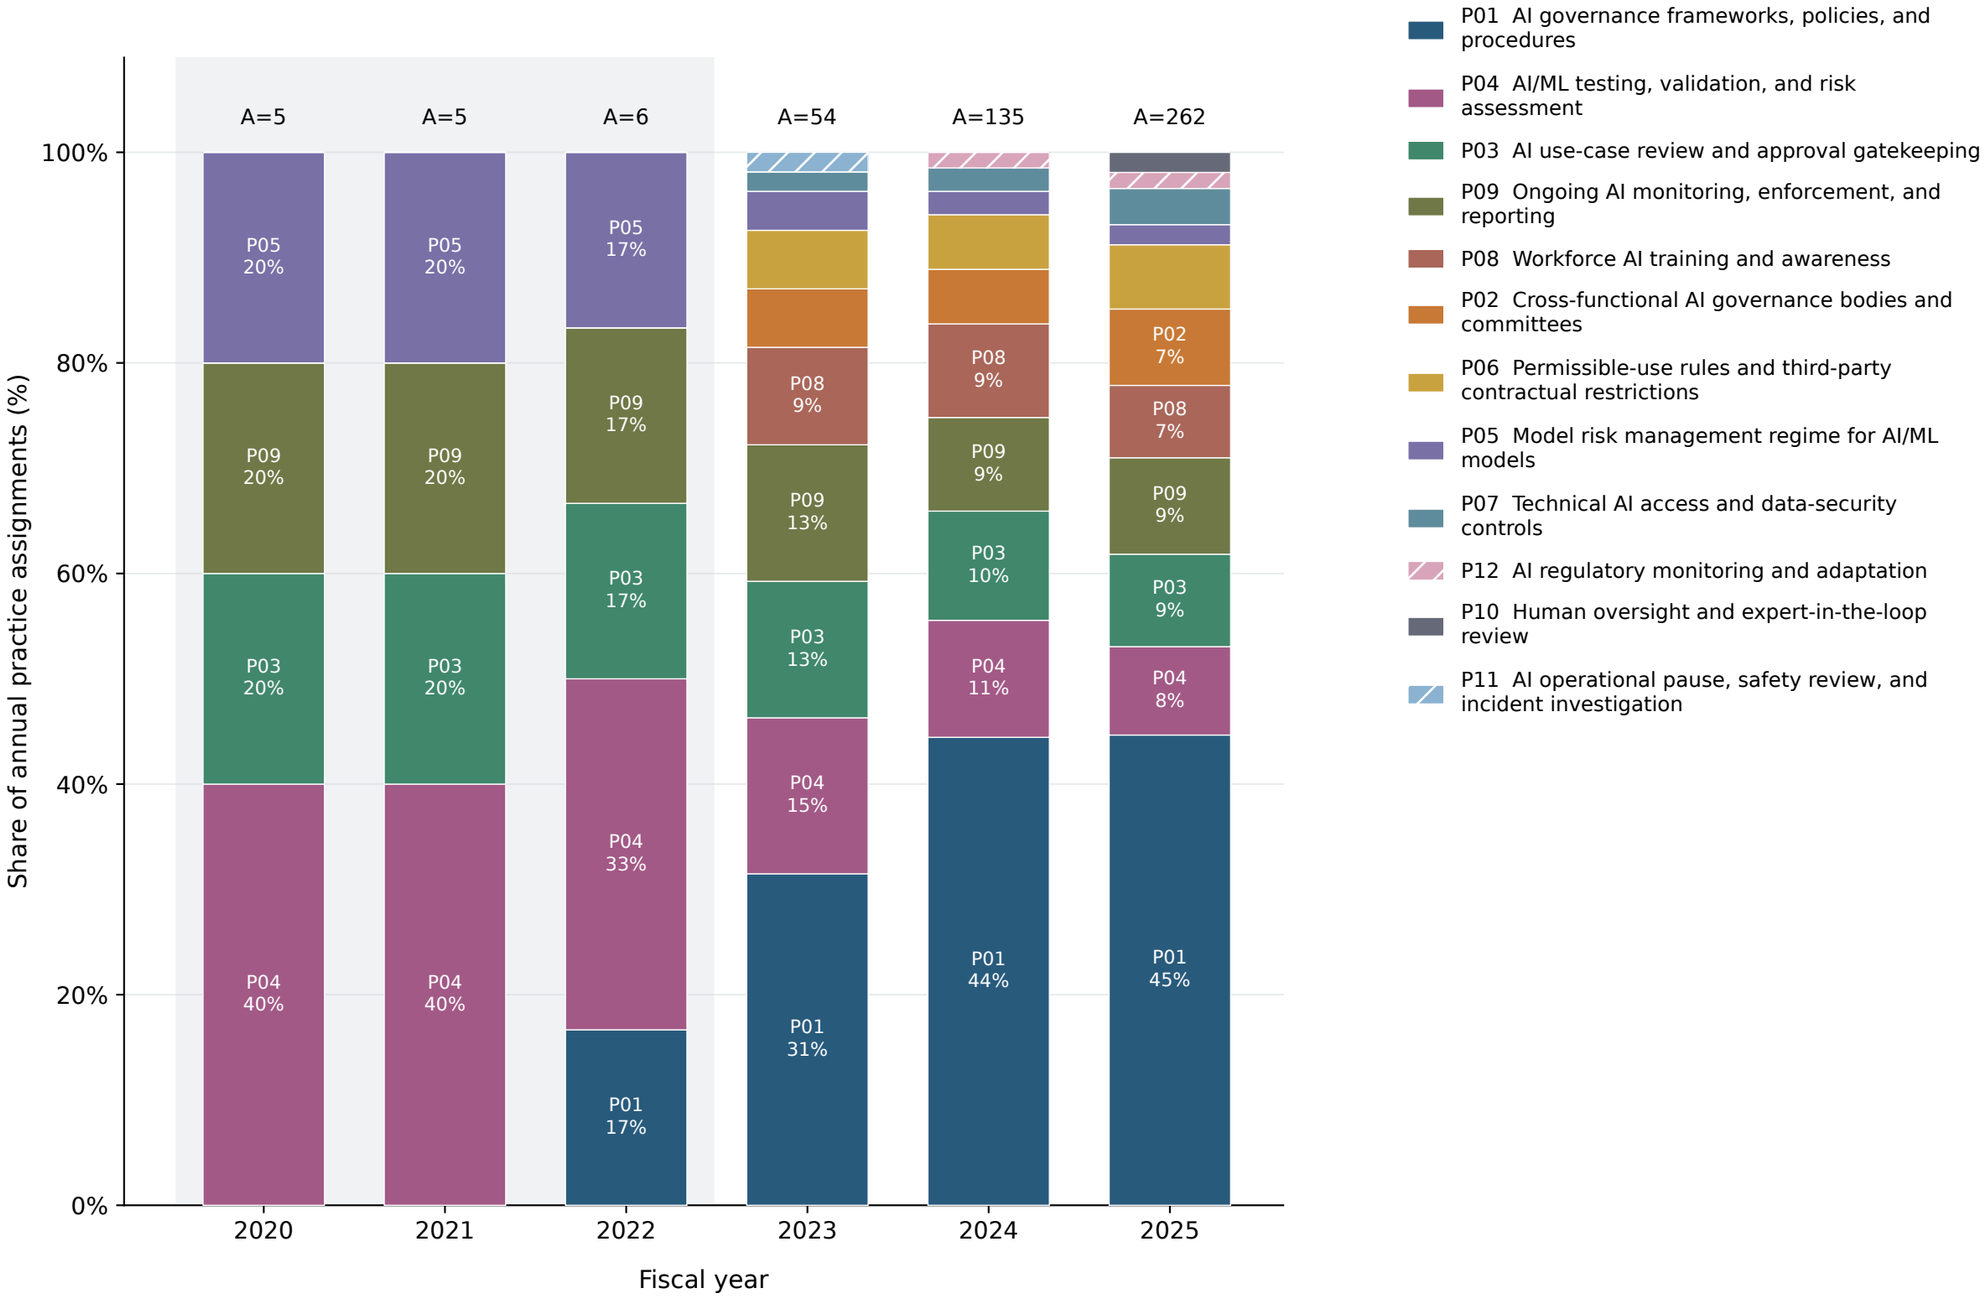
Annual composition of AI governance practices

Figure 1 | Share of annual practice assignments



Composition denominator: annual A = sum of validated firm-year–practice assignments; multi-label.
Total: 467 assignments across 303 governance-Positive firm-years (Item 1A / Item 7). One count per firm-year per practice; all 12 categories retained.
Shaded FY2020–FY2022: only 2–3 Positive firm-years/year; composition is unstable. Assignment shares differ from firm-year prevalence.
QA: source quotes and aggregation verified; automated disclosure labels; human semantic review pending.
